IMPORTANT PREP BEFORE PATIENT TAKES TEST

- Please consult with your physician before stopping any medications. Certain medications and/or supplements may impact test results.
- Test not recommended for patients under 2 years of age.
- DO NOT collect samples when there is active bleeding from hemorrhoids or menstruation.

Before collecting your specimen refer to the shipping instruction to determine what day you can ship. Ship only Monday through Friday, and within 24 hours after final collection.

Please read all instructions carefully before beginning.

1. IMPORTANT: To ensure accurate test results you MUST provide the requested information.
   - Label all tubes with the patient’s first and last name and date of collection. Write patient’s first and last name, date of birth, gender, and final date of collection on the Test Requisition Form.

2. IMPORTANT: Taking the CDSA 2.0 with Parasitology?
   - Please perform all steps below.

3. Taking the CDSA 2.0 without Parasitology?
   - Begin your collection using Day 3 bag and disregard Day 1 and Day 2. See: STOOL Collection DAY 3

STOOL COLLECTION DAY 1 (RANDOM COLLECTION)

2. Put on the latex gloves.

3. Lift toilet seat and wipe the surface of the toilet bowl rim. Unfold the collection device. Bend all the flaps along the lines. Tape the largest flap on the back of the toilet. Tape two middle flaps to the outside of the toilet bowl as far as possible. Tape the front flaps to the outside of the toilet bowl. Make sure the collection device is tight and in the shape of a bowl. If not, reposition the flaps. Lower the toilet seat once the collection device is ready. The collection device should not touch the water.

4. Collect specimen. Do not let specimen make contact with urine or the water.

STOOL COLLECTION DAY 2

8. Repeat STEPS 2 through 7 with second GREEN-TOP TUBE

STOOL COLLECTION DAY 3 OR DAY 1 IF TAKING CDSA 2.0 WITHOUT PARASITOLOGY

9. Repeat STEPS 2 through 7 with third GREEN-TOP TUBE, ORANGE-TOP TUBE, YELLOW-TOP TUBE, and the CLEAR-TOP CUP.

   PLEASE NOTE: CLEAR-TOP CUP: Make sure that the specimen does not exceed the 40-ml FILL LINE. DO NOT OVERFILL.

10. Refrigerate all tubes until ready to ship.

For full details refer to: www.gdx.net/tests/prep

1. GREEN-TOP TUBE: Remove the cap. Transfer stool specimen into the tube. Collect from different areas of the specimen. Mix the specimen with the liquid in the tube until it is as smooth as possible. Make sure that the liquid and specimen do not exceed the FILL LINE. DO NOT OVERFILL. Screw the cap on tightly. Shake tube for 30 seconds. DO NOT FREEZE.

2. Place in biohazard bag and refrigerate.

3. Flush the collection device and dispose of the gloves.

4. Discontinue antibiotics, antiparasitics, antifungals, probiotic supplements (acidophilus, etc.).

5. Discontinue proton pump inhibitors (PPIs), and bismuth 14 days prior if adding on the H. pylori test.

6. Wait at least 4 weeks from colonoscopy or barium enema before starting the test.

7. Discontinue aspirin and other NSAIDs (i.e. ibuprofen), rectal suppositories, enemas, activated charcoal, bismuth, betaine HCl, digestive enzymes, antacids, laxatives, mineral oil, castor oil, and/or bentonite clay.

8. Discontinue proton pump inhibitors (PPIs), and bismuth 14 days prior if adding on the H. pylori test.

9. Wait at least 4 weeks from colonoscopy or barium enema before starting the test.

10. Discontinue aspirin and other NSAIDs (i.e. ibuprofen), rectal suppositories, enemas, activated charcoal, bismuth, betaine HCl, digestive enzymes, antacids, laxatives, mineral oil, castor oil, and/or bentonite clay.
