

MEN'S HORMONE TESTING

**Want to LIVE life with renewed VIGOR?
Hormones impact male health, too.**

GENOVA
DIAGNOSTICS®

Hormones are chemical messengers in the body.

Throughout your life, these messengers play an important role in muscle and skin tone, bone health, sleep, and energy levels. Hormone imbalance can occur at any age and contribute to diseases such as dementia, cancer, and heart disease.

Although hormonal changes can cause significant issues, these can be treated. Patients are often surprised at how easy it is to improve their symptoms and how great they feel once their hormones are back in balance.

Have you noticed changes in hair growth?

Suffer from depression, anxiety, or irritability?

Having trouble achieving and/or sustaining an erection?

If you've answered yes to any of these questions, Genova's advanced hormone testing may be the answer. ***Talk to your doctor today.***

HORMONE IMBALANCE CAN ALSO CAUSE:

Fatigue

Trouble Losing Weight

Low Libido

Brain Fog

How will my hormone test results help me?

Knowing the levels of your hormones and how they relate to each other can open up a wide range of solutions for you and your clinician. These include guided nutritional therapies, and lifestyle changes to keep you in balance.

We offer Three Different Testing Options:

- **Saliva:** A convenient, at-home collection to help your clinician follow hormonal patterns throughout the day. Clinicians often use saliva to monitor hormone therapies.

- **Urine:** One urine sample early in the morning, or a 24-hour collection, which reveals how your body utilizes hormones and assesses your risk for hormone-related disease.

- **Serum:** An in-office blood draw to evaluate hormone levels and help your clinician monitor hormone therapies.

Genova's Hormone Testing

Genova Diagnostics has an array of hormonal tests that can help reveal important information about your hormones. Lab results help you and your health care practitioner to work together to determine which hormone therapies will have the most direct impact on your health.

 **Comprehensive Thyroid Assessment**

 **Comprehensive Melatonin Profile**

 **Male Hormones Plus**
