Uncover Unique Nutritional Needs with the NutrEval Profile

Benefits of Nutritional Testing

Comprehensive
- Provides targeted nutritional information – with over a hundred biomarkers to evaluate Oxidative Stress, B-vitamins, Fatty Acids, Nutrient and Toxic Elements, Amino Acids, Minerals, and SNP add-ons
- Examines imbalances by functional categories: Malabsorption and Dysbiosis Markers, Cellular Energy Markers, Neurotransmitters, Vitamin Markers, Toxin and Detoxification Markers
- Evaluates direct and functional measures in urine, plasma, whole blood, not just white blood cells

Clinically Useful
- Manages symptoms and conditions by illuminating key nutritional and digestive insufficiencies
- Pinpoints a treatment plan using a patient’s nutritional health status
- Identifies complex nutritional insufficiencies that can drive chronic conditions

Interpretive Tools
- Guide treatment with a personalized supplementation plan
- Colorometric reporting to easily highlight key areas of need
- Educational consults and resources to provide the most benefit from results
